

The image displays a 3x3 grid of 9 mazes. Each maze is defined by a 3x3 grid of squares. The mazes are numbered 1 through 9, with the number indicating the starting point of the path. The paths are represented by lines connecting circles at the intersections of the grid lines. The paths are as follows:

- Maze 1:** Starts at (1,1), goes right to (2,1), then down to (2,2), then left to (1,2), then down to (1,3), then right to (2,3), then up to (2,2), then right to (3,2), then down to (3,1), then right to (3,3).
- Maze 2:** Starts at (1,1), goes right to (2,1), then down to (2,2), then left to (1,2), then down to (1,3), then right to (2,3), then up to (2,2), then right to (3,2), then down to (3,1), then right to (3,3).
- Maze 3:** Starts at (1,1), goes right to (2,1), then down to (2,2), then left to (1,2), then down to (1,3), then right to (2,3), then up to (2,2), then right to (3,2), then down to (3,1), then right to (3,3).
- Maze 4:** Starts at (1,1), goes right to (2,1), then down to (2,2), then left to (1,2), then down to (1,3), then right to (2,3), then up to (2,2), then right to (3,2), then down to (3,1), then right to (3,3).
- Maze 5:** Starts at (1,1), goes right to (2,1), then down to (2,2), then left to (1,2), then down to (1,3), then right to (2,3), then up to (2,2), then right to (3,2), then down to (3,1), then right to (3,3).
- Maze 6:** Starts at (1,1), goes right to (2,1), then down to (2,2), then left to (1,2), then down to (1,3), then right to (2,3), then up to (2,2), then right to (3,2), then down to (3,1), then right to (3,3).
- Maze 7:** Starts at (1,1), goes right to (2,1), then down to (2,2), then left to (1,2), then down to (1,3), then right to (2,3), then up to (2,2), then right to (3,2), then down to (3,1), then right to (3,3).
- Maze 8:** Starts at (1,1), goes right to (2,1), then down to (2,2), then left to (1,2), then down to (1,3), then right to (2,3), then up to (2,2), then right to (3,2), then down to (3,1), then right to (3,3).
- Maze 9:** Starts at (1,1), goes right to (2,1), then down to (2,2), then left to (1,2), then down to (1,3), then right to (2,3), then up to (2,2), then right to (3,2), then down to (3,1), then right to (3,3).
