

A 3x3 grid puzzle. The grid contains numbers and circles with paths. The numbers are: Row 1: (1,2)=5, (1,3)=7; Row 2: (2,1)=2, (2,2)=4, (2,3)=3; Row 3: (3,1)=5. The circles and their paths are: (1,1) circle with path to (1,2); (1,3) circle with path to (1,2); (2,1) circle with path to (2,2); (2,2) circle with path to (2,3); (2,3) circle with path to (2,2); (3,1) circle with path to (3,2); (3,2) circle with path to (3,3); (3,3) circle with path to (3,2); (3,3) circle with path to (3,3) (self-loop).
