

A 3x3 grid puzzle. The grid is divided into 9 squares by thick black lines. The numbers and paths are as follows:

- Top-left square:** Contains the number 3 in the top-left corner. A path starts from the bottom edge, goes up, then left, then up again.
- Top-middle square:** Contains the number 7 in the top-left corner and the number 4 in the bottom-left corner. A path starts from the bottom edge, goes up, then left, then up again.
- Top-right square:** Contains the number 1 in the top-left corner and the number 2 in the bottom-left corner. A path starts from the bottom edge, goes up, then left, then up again.
- Middle-left square:** Contains two circles in the top-left and top-middle corners. A path starts from the bottom edge, goes up, then left, then up again.
- Middle-middle square:** Contains a path starting from the bottom edge, going up, then left, then up again.
- Middle-right square:** Contains a circle in the top-middle corner and a circle in the bottom-middle corner. A path starts from the bottom edge, goes up, then left, then up again.
- Bottom-left square:** Contains the number 4 in the top-left corner and a circle in the top-middle corner. A path starts from the bottom edge, goes up, then left, then up again.
- Bottom-middle square:** Contains a circle in the top-middle corner and a circle in the bottom-middle corner. A path starts from the bottom edge, goes up, then left, then up again.
- Bottom-right square:** Contains a circle in the top-middle corner and a circle in the bottom-middle corner. A path starts from the bottom edge, goes up, then left, then up again.
