

A 3x3 grid puzzle. The grid contains numbers 1 through 8 in various cells. Some cells are empty, and some contain paths of connected squares. The paths are defined by the numbers and the grid structure. The paths are as follows:

- Path 1: Starts at (1,1), goes right to (1,2), then down to (2,2), then right to (2,3).
- Path 2: Starts at (1,3), goes right to (1,4), then down to (2,4), then right to (2,5).
- Path 3: Starts at (1,5), goes right to (1,6), then down to (2,6), then right to (2,7).
- Path 4: Starts at (1,7), goes right to (1,8), then down to (2,8), then right to (2,9).
- Path 5: Starts at (1,9), goes right to (1,10), then down to (2,10), then right to (2,11).
- Path 6: Starts at (1,11), goes right to (1,12), then down to (2,12), then right to (2,13).
- Path 7: Starts at (1,13), goes right to (1,14), then down to (2,14), then right to (2,15).
- Path 8: Starts at (1,15), goes right to (1,16), then down to (2,16), then right to (2,17).
