

A 3x3 grid puzzle. The grid contains circles and arrows. The numbers 2, 6, 7, and 9 are placed in specific cells. The arrows indicate paths between circles. The paths are as follows:

- Path 2 (Top-Left):** Starts at a circle in the top-left cell, goes down to a circle in the middle-left cell, then right to a circle in the middle-right cell.
- Path 6 (Top-Right):** Starts at a circle in the top-right cell, goes left to a circle in the middle-right cell, then down to a circle in the bottom-right cell.
- Path 7 (Bottom-Right):** Starts at a circle in the bottom-right cell, goes up to a circle in the middle-right cell, then left to a circle in the middle-left cell.
- Path 9 (Bottom-Left):** Starts at a circle in the bottom-left cell, goes up to a circle in the middle-left cell, then right to a circle in the middle-right cell.
