

A 5x5 grid puzzle. The grid is divided into four quadrants by a vertical line between columns 2 and 3, and a horizontal line between rows 3 and 4. The numbers 1 through 5 are placed in the top-left, top-right, and bottom-right quadrants. Circles with arrows are placed in the grid cells. The arrows indicate the direction of movement from the circles. The puzzle is to be solved by moving the circles to their target positions.
