

A 5x5 grid puzzle. The grid is divided into four quadrants by a vertical line between columns 2 and 3, and a horizontal line between rows 3 and 4. The numbers 1 through 6 are placed in the grid, each with a path of circles and arrows starting from it. The paths are as follows:

- 1**: (3,1) → (3,2) → (3,3) → (3,4) → (3,5)
- 2**: (2,4) → (2,5) → (3,5) → (4,5) → (5,5)
- 3**: (1,4) → (2,4) → (3,4) → (4,4) → (5,4)
- 4**: (4,1) → (4,2) → (4,3) → (4,4) → (4,5)
- 5**: (5,1) → (5,2) → (5,3) → (5,4) → (5,5)
- 6**: (1,1) → (1,2) → (1,3) → (1,4) → (1,5)

The paths are represented by circles at each step and arrows indicating the direction of movement. The numbers 1, 2, 3, 4, 5, and 6 are placed in the grid at the starting positions of their respective paths.
