

A 6x6 grid puzzle. The grid is divided into four 3x3 quadrants by a horizontal and vertical line. The numbers and arrows are as follows:

5		1			
	4	○	7		○
		○	○	○	
9		○			○
		○	○	○	○
		○			
○	○	○		6	
○		○			
				8	4

Arrows indicate the direction of movement from the numbered cells. For example, from cell (1,1) with number 5, an arrow points down-left to (2,2). From cell (2,2) with number 4, an arrow points up-left to (1,3). From cell (2,3) with number 1, an arrow points up-right to (1,4). From cell (2,4) with number 7, an arrow points up-left to (1,5). From cell (3,4) with number 9, an arrow points left to (3,1). From cell (4,1) with number 6, an arrow points down-left to (5,2). From cell (5,4) with number 8, an arrow points down-right to (6,5). From cell (6,6) with number 4, an arrow points up-left to (5,5).
