

A 6x6 grid logic puzzle. The grid is divided into four 3x3 quadrants by a horizontal and vertical line. The numbers and their positions are: 6 (top-left), 7 (top-right), 9 (bottom-left), and 2 (bottom-right). The paths are as follows:

- 6:** Starts at (1,1), goes right to (1,2), then down to (2,2), then right to (2,3), then down to (3,3), then right to (3,4), then down to (4,4), then right to (4,5), then down to (5,5), then right to (5,6), then down to (6,6).
- 7:** Starts at (1,2), goes right to (1,3), then down to (2,3), then right to (2,4), then down to (3,4), then right to (3,5), then down to (4,5), then right to (4,6), then down to (5,6), then right to (5,7), then down to (6,7).
- 9:** Starts at (1,3), goes right to (1,4), then down to (2,4), then right to (2,5), then down to (3,5), then right to (3,6), then down to (4,6), then right to (4,7), then down to (5,7), then right to (5,8), then down to (6,8).
- 2:** Starts at (1,4), goes right to (1,5), then down to (2,5), then right to (2,6), then down to (3,6), then right to (3,7), then down to (4,7), then right to (4,8), then down to (5,8), then right to (5,9), then down to (6,9).
