

A 6x6 grid puzzle. The grid is divided into four 3x3 quadrants by a horizontal and vertical line. The numbers 1 through 8 are placed in the grid, and paths are drawn from each number. The paths are as follows:

- 1:** Starts at (3,3), moves right to (4,3), then up to (4,4).
- 2:** Starts at (2,4), moves up to (1,4), then left to (1,5).
- 3:** Starts at (5,4), moves right to (6,4), then down to (6,5).
- 4:** Starts at (5,5), moves down to (5,6), then left to (4,6).
- 5:** Starts at (3,5), moves left to (2,5), then down to (2,6).
- 6:** Starts at (2,2), moves up to (1,2), then left to (1,3).
- 7:** Starts at (5,2), moves down to (5,3), then left to (4,3).
- 8:** Starts at (3,1), moves left to (2,1), then down to (2,2).

The paths are drawn in a way that they do not cross each other. The numbers 1, 2, 3, 4, 5, 6, 7, and 8 are placed in the grid at the following coordinates (row, column):

- 1: (3,3)
- 2: (2,4)
- 3: (5,4)
- 4: (5,5)
- 5: (3,5)
- 6: (2,2)
- 7: (5,2)
- 8: (3,1)
