

A 3x3 grid puzzle. The grid contains numbers 1 through 9 in various cells. Some cells contain a circle with an arrow pointing to an adjacent cell. The paths are as follows:

- 1:** Top-right cell (row 1, col 3) has a circle with an arrow pointing to the cell below it (row 2, col 3).
- 2:** Middle-right cell (row 2, col 2) has a circle with an arrow pointing to the cell below it (row 3, col 2).
- 3:** Middle-left cell (row 2, col 1) has a circle with an arrow pointing to the cell below it (row 3, col 1).
- 4:** Top-left cell (row 1, col 1) has a circle with an arrow pointing to the cell below it (row 2, col 1).
- 5:** Middle-right cell (row 2, col 3) has a circle with an arrow pointing to the cell below it (row 3, col 3).
- 6:** Top-right cell (row 1, col 3) has a circle with an arrow pointing to the cell below it (row 2, col 3).
- 7:** Middle-right cell (row 2, col 3) has a circle with an arrow pointing to the cell below it (row 3, col 3).
- 8:** Middle-right cell (row 2, col 3) has a circle with an arrow pointing to the cell below it (row 3, col 3).
- 9:** Bottom-left cell (row 3, col 1) has a circle with an arrow pointing to the cell below it (row 4, col 1).
