

A 3x3 grid puzzle. The grid contains numbers 1 through 9 in some cells, and arrows in others. The arrows indicate the direction of the number in the adjacent cell. For example, the number 1 in the top-left cell has an arrow pointing down-right to the cell containing 9. The number 9 in the top-middle cell has an arrow pointing up-left to the cell containing 1. The number 7 in the middle-left cell has an arrow pointing up-left to the cell containing 3. The number 3 in the middle-middle cell has an arrow pointing down-right to the cell containing 9. The number 8 in the bottom-left cell has an arrow pointing up-right to the cell containing 7. The number 9 in the bottom-middle cell has an arrow pointing up-left to the cell containing 3. The number 9 in the bottom-right cell has an arrow pointing up-left to the cell containing 3. The number 9 in the top-right cell has an arrow pointing up-left to the cell containing 3. The number 9 in the middle-right cell has an arrow pointing up-left to the cell containing 3. The number 9 in the bottom-right cell has an arrow pointing up-left to the cell containing 3. The number 9 in the bottom-right cell has an arrow pointing up-left to the cell containing 3.
