

The image displays a 3x3 grid of nine mazes, each with a unique path and a starting point marked with a circled number. The paths are numbered 1 through 9.

- Maze 1:** Starting at the top-left cell, the path moves right, then down, then right again to the top-right cell.
- Maze 2:** Starting at the top-middle cell, the path moves down, then left, then down again to the bottom-middle cell.
- Maze 3:** Starting at the top-right cell, the path moves left, then down, then left again to the bottom-left cell.
- Maze 4:** Starting at the middle-left cell, the path moves up, then right, then up again to the middle-right cell.
- Maze 5:** Starting at the middle-middle cell, the path moves down, then left, then down again to the bottom-middle cell.
- Maze 6:** Starting at the middle-right cell, the path moves left, then up, then left again to the top-left cell.
- Maze 7:** Starting at the bottom-left cell, the path moves up, then right, then up again to the bottom-middle cell.
- Maze 8:** Starting at the bottom-middle cell, the path moves left, then up, then left again to the middle-left cell.
- Maze 9:** Starting at the bottom-right cell, the path moves left, then up, then left again to the middle-right cell.
