

A 4x4 grid logic puzzle. The grid is divided into four 2x2 quadrants by a vertical line between columns 2 and 3, and a horizontal line between rows 2 and 3. The puzzle contains eight numbers (1-8) and eight paths. Each path starts at a number and ends at a circle. The paths are as follows:

- 1:** Starts at (2,2), moves right to (3,2), then down to (3,3), ending at a circle at (3,3).
- 2:** Starts at (3,2), moves left to (2,2), then down to (2,3), ending at a circle at (2,3).
- 3:** Starts at (3,3), moves right to (4,3), then up to (4,2), ending at a circle at (4,2).
- 4:** Starts at (4,3), moves left to (3,3), then up to (3,2), ending at a circle at (3,2).
- 5:** Starts at (4,2), moves left to (3,2), then up to (3,1), ending at a circle at (3,1).
- 6:** Starts at (3,1), moves left to (2,1), then up to (2,2), ending at a circle at (2,2).
- 7:** Starts at (2,1), moves left to (1,1), then up to (1,2), ending at a circle at (1,2).
- 8:** Starts at (1,2), moves left to (1,1), then up to (1,2), ending at a circle at (1,2).
