

A 3x3 grid logic puzzle. The grid is divided into 9 cells. The clues are as follows:

- Top-left cell: An arrow pointing up and to the right, starting from the bottom-left corner and ending at the top-right corner.
- Top-middle cell: An arrow pointing up and to the right, starting from the bottom-left corner and ending at the top-right corner.
- Top-right cell: An arrow pointing up and to the right, starting from the bottom-left corner and ending at the top-right corner.
- Middle-left cell: An arrow pointing up and to the right, starting from the bottom-left corner and ending at the top-right corner.
- Middle-middle cell: An arrow pointing up and to the right, starting from the bottom-left corner and ending at the top-right corner.
- Middle-right cell: An arrow pointing up and to the right, starting from the bottom-left corner and ending at the top-right corner.
- Bottom-left cell: An arrow pointing up and to the right, starting from the bottom-left corner and ending at the top-right corner.
- Bottom-middle cell: An arrow pointing up and to the right, starting from the bottom-left corner and ending at the top-right corner.
- Bottom-right cell: An arrow pointing up and to the right, starting from the bottom-left corner and ending at the top-right corner.
