

The image shows a 3x3 grid of 9 squares. Each square contains a unique geometric pattern composed of lines and circles. The patterns are numbered 6 through 8. The numbers are placed in the top-right, middle-right, and bottom-left squares of the grid.

- Top-left square:** A circle at the top-left corner, a line from the top-left to the center, and a line from the center to the top-right corner.
- Top-middle square:** A circle at the top-left corner, a line from the top-left to the center, and a line from the center to the bottom-left corner.
- Top-right square:** A circle at the top-left corner, a line from the top-left to the center, and a line from the center to the top-right corner. (Number 8)
- Middle-left square:** A circle at the top-left corner, a line from the top-left to the center, and a line from the center to the bottom-left corner. (Number 9)
- Middle-middle square:** A circle at the top-left corner, a line from the top-left to the center, and a line from the center to the bottom-left corner.
- Middle-right square:** A circle at the top-left corner, a line from the top-left to the center, and a line from the center to the top-right corner. (Number 6)
- Bottom-left square:** A circle at the top-left corner, a line from the top-left to the center, and a line from the center to the bottom-left corner. (Number 8)
- Bottom-middle square:** A circle at the top-left corner, a line from the top-left to the center, and a line from the center to the bottom-left corner.
- Bottom-right square:** A circle at the top-left corner, a line from the top-left to the center, and a line from the center to the bottom-left corner. (Number 6)
