

PUZZLE MADNESS

Daily Tough Arrow Sudoku Puzzle for Monday 11th October 2021

A 9x9 grid for an Arrow Sudoku puzzle. The grid is divided into 3x3 sub-grids. Some cells contain numbers: (1,2)=2, (3,1)=7, (3,2)=1, (4,4)=7, (5,2)=1, (5,3)=5, (5,4)=3. Arrows and circles are placed in various cells, indicating the direction and length of the arrows. For example, in row 1, column 2, there is a circle with an arrow pointing up-left. In row 3, column 1, there is a circle with an arrow pointing right. In row 5, column 2, there is a circle with an arrow pointing right. In row 5, column 3, there is a circle with an arrow pointing left. In row 5, column 4, there is a circle with an arrow pointing up-left. In row 5, column 5, there is a circle with an arrow pointing up-left. In row 5, column 6, there is a circle with an arrow pointing up-left. In row 5, column 7, there is a circle with an arrow pointing down-left. In row 5, column 8, there is a circle with an arrow pointing down-left. In row 5, column 9, there is a circle with an arrow pointing down-left. In row 6, column 1, there is a circle with an arrow pointing up-left. In row 6, column 2, there is a circle with an arrow pointing down-left. In row 6, column 3, there is a circle with an arrow pointing down-left. In row 6, column 4, there is a circle with an arrow pointing down-left. In row 6, column 5, there is a circle with an arrow pointing down-left. In row 6, column 6, there is a circle with an arrow pointing down-left. In row 6, column 7, there is a circle with an arrow pointing down-left. In row 6, column 8, there is a circle with an arrow pointing down-left. In row 6, column 9, there is a circle with an arrow pointing down-left. In row 7, column 1, there is a circle with an arrow pointing up-left. In row 7, column 2, there is a circle with an arrow pointing down-left. In row 7, column 3, there is a circle with an arrow pointing down-left. In row 7, column 4, there is a circle with an arrow pointing down-left. In row 7, column 5, there is a circle with an arrow pointing down-left. In row 7, column 6, there is a circle with an arrow pointing down-left. In row 7, column 7, there is a circle with an arrow pointing down-left. In row 7, column 8, there is a circle with an arrow pointing down-left. In row 7, column 9, there is a circle with an arrow pointing down-left. In row 8, column 1, there is a circle with an arrow pointing up-left. In row 8, column 2, there is a circle with an arrow pointing down-left. In row 8, column 3, there is a circle with an arrow pointing down-left. In row 8, column 4, there is a circle with an arrow pointing down-left. In row 8, column 5, there is a circle with an arrow pointing down-left. In row 8, column 6, there is a circle with an arrow pointing down-left. In row 8, column 7, there is a circle with an arrow pointing down-left. In row 8, column 8, there is a circle with an arrow pointing down-left. In row 8, column 9, there is a circle with an arrow pointing down-left. In row 9, column 1, there is a circle with an arrow pointing up-left. In row 9, column 2, there is a circle with an arrow pointing down-left. In row 9, column 3, there is a circle with an arrow pointing down-left. In row 9, column 4, there is a circle with an arrow pointing down-left. In row 9, column 5, there is a circle with an arrow pointing down-left. In row 9, column 6, there is a circle with an arrow pointing down-left. In row 9, column 7, there is a circle with an arrow pointing down-left. In row 9, column 8, there is a circle with an arrow pointing down-left. In row 9, column 9, there is a circle with an arrow pointing down-left.
