

A 6x6 grid with numbers and paths. The grid is divided into four 3x3 quadrants by a vertical line between columns 3 and 4, and a horizontal line between rows 3 and 4. Numbers are placed in the following cells: (1,1)=9, (1,2)=3, (1,5)=5, (1,6)=4, (2,4)=6, (2,5)=7, (2,6)=9, (3,1)=6, (3,2)=3, (3,4)=8, (3,5)=1, (3,6)=6, (4,1)=8, (4,2)=9, (4,3)=2, (4,4)=3, (4,5)=6, (4,6)=2, (5,2)=1, (5,4)=2, (5,6)=8. Paths are drawn in the following cells: (1,1) to (1,2), (1,2) to (1,3), (1,3) to (2,3), (2,3) to (2,4), (2,4) to (2,5), (2,5) to (2,6), (3,1) to (3,2), (3,2) to (3,3), (3,3) to (3,4), (3,4) to (3,5), (3,5) to (3,6), (4,1) to (4,2), (4,2) to (4,3), (4,3) to (4,4), (4,4) to (4,5), (4,5) to (4,6), (5,1) to (5,2), (5,2) to (5,3), (5,3) to (5,4), (5,4) to (5,5), (5,5) to (5,6), (6,1) to (6,2), (6,2) to (6,3), (6,3) to (6,4), (6,4) to (6,5), (6,5) to (6,6).
