

A 6x6 grid with numbers and paths. The grid is divided into four 3x3 quadrants by a vertical line between columns 3 and 4, and a horizontal line between rows 3 and 4. Numbers are placed in the top-left, top-right, and bottom-right quadrants. Paths are shown in the top-left, top-right, and bottom-right quadrants. The paths are composed of gray lines and circles. The paths in the top-left and top-right quadrants are connected, as are the paths in the bottom-right quadrant. The paths in the bottom-left quadrant are not connected to the other paths.
