

A 6x6 grid with numbers and a path. The numbers are: Row 1: (1,1)=1, (1,3)=2, (1,5)=4, (1,6)=2; Row 2: (2,2)=9, (2,3)=3, (2,5)=6, (2,6)=1, (2,7)=3; Row 3: (3,1)=5, (3,2)=4, (3,3)=7, (3,5)=9, (3,6)=4, (3,7)=3; Row 4: (4,1)=9, (4,3)=8, (4,5)=2, (4,7)=5; Row 5: (5,1)=7, (5,4)=8, (5,6)=5, (5,7)=8; Row 6: (6,5)=4, (6,6)=6. A path of grey lines connects the numbers in the following order: 1 (1,1) -> 2 (1,3) -> 4 (1,5) -> 2 (1,6) -> 1 (2,6) -> 3 (2,7) -> 4 (3,6) -> 3 (3,7) -> 5 (4,7) -> 2 (4,5) -> 9 (3,5) -> 7 (3,3) -> 4 (3,2) -> 8 (4,3) -> 7 (5,1) -> 4 (6,5) -> 6 (6,6).
