

A 6x6 grid with numbers and a continuous path. The numbers are placed in the following cells (row, column): (1,2)=3, (1,3)=9, (1,5)=4, (1,6)=7, (2,1)=6, (2,3)=9, (2,4)=2, (2,5)=7, (3,1)=7, (3,2)=8, (3,3)=4, (3,4)=5, (3,5)=6, (3,6)=8, (4,1)=9, (4,2)=1, (4,3)=8, (4,5)=9, (4,6)=5, (5,1)=2, (5,3)=5, (5,4)=1, (5,5)=8, (5,6)=9. The path starts at (1,5), goes right to (1,6), down to (2,6), left to (2,5), down to (3,5), left to (3,4), down to (4,4), left to (4,3), down to (5,3), left to (5,2), down to (6,2), right to (6,3), up to (5,3), left to (4,3), down to (3,3), left to (3,2), down to (4,2), left to (4,1), down to (5,1), right to (5,2), up to (4,2), left to (3,2), down to (2,2), left to (2,1), down to (3,1), right to (3,2), up to (2,2), left to (1,2), down to (2,2), right to (2,3), up to (1,3), down to (2,3), right to (2,4), up to (1,4), down to (2,4), right to (2,5), up to (1,5).
