

A 6x6 grid with numbers and a path. The numbers are placed in the following cells (row, column): (1,1)=5, (1,2)=2, (1,3)=1, (1,4)=5, (1,5)=1, (1,6)=7, (1,7)=8, (1,8)=5, (1,9)=2, (2,1)=7, (2,2)=9, (2,3)=6, (2,4)=4, (2,5)=3, (2,6)=3, (2,7)=3, (2,8)=6, (2,9)=4, (3,1)=6, (3,2)=2, (3,3)=9, (3,4)=2, (3,5)=8, (3,6)=9, (3,7)=9, (3,8)=6. The path is a continuous line of gray squares connecting the numbers in the following order: (1,1) to (1,2) to (1,3) to (1,4) to (1,5) to (1,6) to (1,7) to (1,8) to (1,9) to (2,1) to (2,2) to (2,3) to (2,4) to (2,5) to (2,6) to (2,7) to (2,8) to (2,9) to (3,1) to (3,2) to (3,3) to (3,4) to (3,5) to (3,6) to (3,7) to (3,8) to (3,9).
