

A 9x9 grid with numbers and a path. The numbers are placed in the following cells (row, column): (1,1)=7, (1,2)=6, (1,3)=9, (1,4)=2, (1,5)=3, (1,6)=5, (1,7)=3, (1,8)=5, (1,9)=1, (2,1)=3, (2,2)=5, (2,3)=6, (2,4)=7, (2,5)=4, (2,6)=1, (2,7)=4, (2,8)=1, (2,9)=9, (3,1)=6, (3,2)=7, (3,3)=4, (3,4)=1, (3,5)=7, (3,6)=6, (3,7)=8, (3,8)=9, (3,9)=9, (4,1)=2, (4,2)=1, (4,3)=8, (4,4)=3, (4,5)=7, (4,6)=6, (4,7)=8, (4,8)=9, (4,9)=9. The path is a continuous line connecting the numbers in the following order: 1 (1,9) -> 5 (1,8) -> 3 (1,7) -> 5 (1,6) -> 6 (2,3) -> 7 (2,4) -> 4 (2,5) -> 1 (2,6) -> 4 (2,7) -> 1 (3,4) -> 7 (3,5) -> 6 (3,6) -> 8 (3,7) -> 9 (3,8) -> 9 (3,9) -> 8 (4,8) -> 6 (4,7) -> 7 (4,6) -> 1 (4,5) -> 4 (4,4) -> 1 (4,3) -> 7 (4,2) -> 6 (4,1).
