

A 6x6 grid with numbers and a path. The numbers are: Row 1: (1,1)=1, (1,3)=7, (1,4)=3, (1,5)=1, (1,6)=9, (1,7)=4, (1,8)=8; Row 2: (2,1)=7, (2,3)=9, (2,5)=3, (2,6)=4; Row 3: (3,1)=5, (3,2)=3, (3,3)=8, (3,4)=9, (3,5)=6, (3,6)=1; Row 4: (4,1)=3, (4,2)=8, (4,3)=1, (4,4)=6, (4,5)=7, (4,6)=2, (4,7)=4, (4,8)=6; Row 5: (5,1)=3, (5,2)=8, (5,3)=5, (5,4)=3, (5,5)=2, (5,6)=4, (5,7)=4, (5,8)=6; Row 6: (6,1)=3, (6,2)=8, (6,3)=5, (6,4)=3, (6,5)=2, (6,6)=4, (6,7)=4, (6,8)=6. The path is a continuous line connecting the numbers in the following order: 1 (1,1) -> 7 (1,3) -> 3 (1,4) -> 1 (1,5) -> 9 (1,6) -> 4 (1,7) -> 8 (1,8) -> 3 (2,5) -> 4 (2,6) -> 9 (2,3) -> 7 (2,1) -> 5 (3,1) -> 3 (3,2) -> 8 (3,3) -> 9 (3,4) -> 6 (3,5) -> 1 (3,6) -> 6 (4,8) -> 4 (4,7) -> 2 (4,6) -> 7 (4,5) -> 6 (4,4) -> 1 (4,3) -> 8 (4,2) -> 3 (4,1) -> 5 (5,3) -> 8 (5,2) -> 3 (5,1) -> 3 (6,4) -> 2 (6,5) -> 4 (6,6) -> 4 (6,7) -> 6 (6,8).
