

A 6x6 grid with numbers and a path. The numbers are placed in the following cells (row, column): (1,1)=2, (1,3)=5, (1,4)=8, (1,5)=6, (1,6)=7, (1,7)=2, (1,8)=8, (2,1)=6, (2,3)=3, (2,5)=1, (2,6)=5, (2,7)=7, (3,1)=1, (3,2)=5, (3,3)=8, (3,5)=7, (3,6)=1, (3,7)=4, (3,8)=3, (4,2)=5, (4,3)=9, (4,4)=3, (4,5)=5, (4,6)=7, (4,7)=9, (4,8)=2. The path is a continuous line connecting the numbers in the following order: 2 (1,1) -> 6 (1,3) -> 3 (2,3) -> 1 (2,5) -> 5 (2,6) -> 7 (2,7) -> 4 (3,7) -> 3 (3,8) -> 2 (4,8) -> 9 (4,7) -> 7 (4,6) -> 1 (3,6) -> 5 (3,5) -> 8 (3,3) -> 5 (3,2) -> 6 (2,1) -> 2 (1,1).
