

A 6x6 grid with numbers and a path. The numbers are placed in the following cells (row, column): (1,1)=4, (1,2)=2, (1,4)=2, (1,5)=6, (1,6)=3, (2,1)=9, (2,3)=9, (2,4)=7, (2,5)=6, (3,4)=5, (4,1)=8, (4,3)=7, (4,4)=4, (4,5)=6, (4,6)=9, (5,1)=4, (5,3)=6, (5,4)=3, (5,5)=1, (5,6)=6, (6,3)=8, (6,4)=4, (6,5)=5, (6,6)=2, (7,5)=7, (7,6)=8. A path of grey lines connects the numbers in the following order: 4 (1,1) -> 2 (1,2) -> 9 (2,1) -> 2 (1,4) -> 9 (2,3) -> 7 (2,4) -> 6 (2,5) -> 3 (1,6) -> 5 (3,4) -> 9 (4,6) -> 6 (5,6) -> 1 (5,5) -> 3 (5,4) -> 6 (4,5) -> 4 (4,4) -> 7 (4,3) -> 8 (4,1) -> 4 (5,1) -> 6 (5,3) -> 8 (6,3) -> 4 (6,4) -> 7 (7,5) -> 2 (6,6) -> 5 (6,5).
