

A 6x6 grid with numbers and a continuous path. The numbers are placed in the following cells (row, column): (1,2)=2, (1,4)=6, (1,6)=9, (2,1)=5, (2,2)=9, (2,4)=6, (2,6)=5, (3,3)=5, (3,4)=6, (3,5)=2, (3,6)=2, (4,2)=4, (4,3)=1, (4,4)=5, (4,6)=4, (5,2)=6, (5,3)=2, (5,4)=8, (5,6)=8, (6,1)=8, (6,2)=5, (6,3)=4, (6,6)=3. A continuous path of gray lines connects the numbers in the following order: 2 (1,2) -> 9 (2,2) -> 5 (2,1) -> 4 (4,2) -> 6 (5,2) -> 8 (6,2) -> 5 (6,3) -> 4 (6,4) -> 1 (4,3) -> 5 (4,4) -> 6 (3,4) -> 2 (3,5) -> 7 (4,5) -> 6 (2,4) -> 9 (1,4) -> 5 (2,6) -> 9 (1,6) -> 2 (3,6) -> 4 (4,6) -> 8 (5,6) -> 3 (6,6) -> 8 (5,4) -> 2 (5,3) -> 6 (3,3) -> 5 (3,4) -> 2 (1,2).
