

A 6x6 grid with numbers and a path. The numbers are placed in the following cells (row, column): (1,1)=6, (1,3)=3, (1,4)=8, (1,5)=1, (1,6)=4, (1,7)=6, (2,1)=8, (2,3)=4, (2,5)=3, (2,7)=5, (3,1)=7, (3,3)=2, (3,4)=6, (3,5)=5, (3,7)=4, (4,1)=5, (4,3)=1, (4,5)=9, (4,6)=8, (4,7)=7, (5,1)=4, (5,3)=8, (5,5)=1, (5,6)=3, (5,7)=5, (6,1)=6, (6,3)=6, (6,5)=8, (6,6)=3, (6,7)=5. A path of grey lines connects the numbers in the following order: 6 (1,1) -> 4 (1,6) -> 6 (1,7) -> 5 (2,7) -> 4 (3,7) -> 2 (3,3) -> 6 (3,4) -> 5 (3,5) -> 1 (4,5) -> 9 (4,5) -> 8 (4,6) -> 7 (4,7) -> 5 (5,7) -> 3 (5,6) -> 8 (5,3) -> 6 (5,3) -> 4 (5,1) -> 7 (3,1) -> 8 (2,1) -> 6 (1,1).
