

A 6x6 grid with numbers and a path. The numbers are: Row 1: (1,4)=8, (1,5)=3, (1,6)=7; Row 2: (2,3)=8, (2,5)=5, (2,6)=7; Row 3: (3,2)=9, (3,5)=6, (3,6)=3; Row 4: (4,1)=9, (4,3)=3, (4,4)=5, (4,5)=2, (4,6)=6; Row 5: (5,1)=4, (5,3)=7, (5,4)=1, (5,5)=4, (5,6)=5; Row 6: (6,1)=6, (6,3)=3, (6,5)=1, (6,6)=8. The path is a continuous line of gray segments connecting the following cells: (2,3) to (2,4), (2,4) to (2,5), (2,5) to (2,6), (2,6) to (3,6), (3,6) to (3,5), (3,5) to (3,4), (3,4) to (3,3), (3,3) to (3,2), (3,2) to (3,1), (3,1) to (4,1), (4,1) to (4,2), (4,2) to (4,3), (4,3) to (4,4), (4,4) to (4,5), (4,5) to (4,6), (4,6) to (5,6), (5,6) to (5,5), (5,5) to (5,4), (5,4) to (5,3), (5,3) to (5,2), (5,2) to (5,1), (5,1) to (6,1), (6,1) to (6,2), (6,2) to (6,3), (6,3) to (6,4), (6,4) to (6,5), (6,5) to (6,6).
