

A 9x9 grid with numbers and a continuous path. The numbers are placed in the following cells (row, column): (1,3)=5, (1,7)=8, (1,9)=7, (2,3)=7, (2,4)=3, (2,8)=9, (2,9)=4, (3,1)=9, (3,2)=5, (3,3)=6, (3,8)=7, (3,9)=4, (4,3)=3, (4,5)=6, (4,7)=1, (4,8)=8, (5,1)=1, (5,8)=6, (5,9)=9, (6,5)=5, (6,8)=3, (7,3)=8, (7,4)=2, (7,9)=1. A continuous path of grey lines connects the numbers in the following order: 5 (1,3) -> 7 (2,3) -> 3 (2,4) -> 5 (2,8) -> 9 (2,9) -> 4 (2,9) -> 7 (3,8) -> 4 (3,9) -> 6 (3,3) -> 3 (4,3) -> 6 (4,5) -> 1 (4,7) -> 8 (4,8) -> 6 (5,8) -> 9 (5,9) -> 3 (6,8) -> 5 (6,5) -> 8 (7,3) -> 2 (7,4) -> 1 (7,9).
