

A 9x9 grid with numbers and a continuous line puzzle. The grid is divided into four quadrants by a vertical line between columns 4 and 5, and a horizontal line between rows 4 and 5. The numbers are placed in the following cells:

2	4	3	2	6				
				9	7			
9							3	
		8	1	9	6			
6	2	7	4					9
			8				9	1
	7	5		2				
8								

The continuous line puzzle is a single path that starts at the top-left corner (row 1, column 1) and ends at the bottom-right corner (row 9, column 9). The path is composed of horizontal, vertical, and diagonal segments. The path is shown in the image as a continuous line that starts at the top-left corner and ends at the bottom-right corner, passing through the numbers and avoiding the empty cells.
