

A 6x6 grid with numbers and a continuous path. The numbers are placed in the following cells (row, column): (1,1)=2, (1,2)=7, (1,3)=8, (1,4)=1, (1,6)=8, (2,3)=2, (2,4)=5, (2,6)=6, (3,1)=2, (3,2)=8, (3,3)=6, (3,4)=9, (3,5)=6, (3,6)=3, (4,1)=8, (4,2)=6, (4,3)=4, (4,5)=1, (4,6)=8, (4,7)=4, (5,1)=5, (5,2)=2, (5,4)=3, (6,2)=1, (6,3)=3, (6,4)=6, (6,5)=4, (6,6)=1, (6,7)=5. A continuous path of gray lines connects the numbers in the following order: 2 (1,1) -> 8 (1,2) -> 7 (1,3) -> 1 (1,4) -> 8 (1,6) -> 6 (2,6) -> 3 (3,6) -> 4 (4,6) -> 1 (4,5) -> 9 (3,4) -> 6 (3,3) -> 2 (3,2) -> 8 (3,1) -> 5 (5,1) -> 2 (5,2) -> 1 (6,2) -> 3 (6,3) -> 6 (6,4) -> 4 (6,5) -> 1 (6,6) -> 5 (6,7).
