

A 5x5 grid with numbers and a path. The numbers are: Row 1: (1,1)=2, (1,3)=1, (1,4)=5, (1,5)=9, (1,6)=5; Row 2: (2,1)=7, (2,3)=8, (2,4)=5, (2,5)=2, (2,6)=1, (2,7)=5; Row 3: (3,2)=4, (3,3)=5, (3,4)=4, (3,6)=5, (3,7)=7; Row 4: (4,1)=5, (4,2)=2, (4,3)=1, (4,5)=2, (4,6)=8, (4,7)=4; Row 5: (5,1)=6, (5,3)=9, (5,4)=4, (5,5)=5, (5,6)=1. A path of grey lines connects the numbers in the following order: 2 (1,1) -> 7 (2,1) -> 8 (2,3) -> 5 (2,4) -> 2 (2,5) -> 1 (2,6) -> 5 (2,7) -> 4 (3,2) -> 5 (3,3) -> 4 (3,4) -> 5 (3,6) -> 7 (3,7) -> 4 (4,7) -> 8 (4,6) -> 2 (4,5) -> 1 (4,3) -> 9 (5,3) -> 4 (5,4) -> 5 (5,5) -> 1 (5,6).
