

A 6x6 grid with numbers and a path. The numbers are placed in the following cells (row, column): (1,1)=3, (1,2)=8, (1,3)=5, (1,4)=6, (1,5)=9, (1,6)=4, (2,1)=3, (2,2)=6, (2,3)=1, (2,4)=6, (2,5)=7, (2,6)=7, (3,1)=8, (3,2)=6, (3,3)=1, (3,4)=3, (3,5)=7, (3,6)=2, (3,7)=3, (4,1)=7, (4,2)=9, (4,3)=2, (4,4)=8, (4,5)=7, (5,1)=8, (5,2)=1, (5,3)=6, (5,4)=5, (5,5)=4, (5,6)=7. A path of grey lines connects the numbers in the following order: 3 (1,1) to 8 (1,2) to 5 (1,3) to 6 (1,4) to 9 (1,5) to 4 (1,6) to 7 (2,6) to 7 (2,5) to 1 (2,3) to 6 (2,2) to 8 (3,1) to 6 (3,2) to 1 (3,3) to 3 (3,4) to 7 (3,5) to 2 (3,6) to 8 (4,4) to 7 (4,5) to 4 (5,5) to 5 (5,4) to 6 (5,3) to 1 (5,2) to 8 (5,1).
