

# PUZZLE MADNESS

Daily Medium Factor Line Sudoku Puzzle for Monday 11th April 2011

4								
	3			8		2	6	
	1				8			
8			2					5
		9		6				8
	9	6						
	7		4					
2	8			9	3		1	
	5			7				3

A 9x9 grid for a Factor Line Sudoku puzzle. The grid contains numbers in various cells. A continuous line starts at the top-right corner (row 1, column 9) and ends at the bottom-left corner (row 9, column 1). The line moves horizontally, vertically, and diagonally, forming a path that visits several cells. Some cells on the path contain numbers: (1,9)=2, (2,8)=6, (2,5)=8, (3,6)=8, (4,8)=5, (4,4)=2, (5,5)=6, (5,2)=9, (6,2)=9, (6,1)=8, (7,3)=4, (8,4)=9, (8,5)=3, (8,8)=1, (9,4)=7, and (9,9)=3. There are also empty circles on the path at (7,5), (7,6), (8,3), and (8,4).
