

A 6x6 grid with numbers 1-9 and a path of circles. The path starts at (1,3), goes right to (2,3), then up to (2,4), then right to (3,4), then down to (3,5), then right to (4,5), then down to (4,6), then right to (5,6), then down to (5,5), then right to (6,5), then down to (6,4), then right to (6,3), then down to (6,2), then right to (6,1), then down to (5,1), then right to (5,2), then down to (5,3), then right to (5,4), then down to (5,5), then right to (5,6), then down to (4,6), then right to (4,5), then down to (4,4), then right to (4,3), then down to (4,2), then right to (4,1), then down to (3,1), then right to (3,2), then down to (3,3), then right to (3,4), then down to (3,5), then right to (3,6), then down to (2,6), then right to (2,5), then down to (2,4), then right to (2,3), then down to (2,2), then right to (2,1), then down to (1,1), then right to (1,2), then down to (1,3). The path ends at (1,3).
