Diagram of a 4x4 Futoshiki puzzle grid. The grid consists of squares. Some squares contain numbers: the top-left square contains '4', the middle-right square contains '4', the bottom-right square contains '2', and the bottom-middle square contains '1'. Comparison symbols are placed between adjacent squares: a greater-than sign (>) is between the top-left and top-middle squares; a less-than sign (<) is between the middle-left and middle-middle squares; a less-than sign (<) is between the middle-middle and middle-right squares; a less-than sign (<) is between the bottom-middle and bottom-right squares; a less-than sign (<) is between the bottom-left and bottom-middle squares; a less-than sign (<) is between the bottom-middle and bottom-right squares. Additionally, there are symbols above and below some squares: a less-than sign (<) is below the top-middle square; a less-than sign (<) is above the middle-right square; a less-than sign (<) is above the bottom-middle square; a less-than sign (<) is above the bottom-right square.
