

A 6x6 grid puzzle. The grid contains numbers at specific intersections, and gray paths connect some of them. The numbers are as follows:

	6			4	
					8
3		4	1	2	
	7	6		3	5
4			3		8
1	8			4	
				7	4
7	4	1			
			6	7	
					9

The gray paths represent connections between numbers. Some numbers have multiple paths leading away from them, while others are isolated or part of a single path.
