

PUZZLE MADNESS

Daily Hard Greater Than Sudoku Puzzle for Wednesday 19th October 2005

A 6x6 grid of arrows on a coordinate system. The grid is defined by horizontal and vertical lines. Arrows point in various directions: up, down, left, right, and diagonally. The arrows are represented by small black symbols (<, >, ^, v) placed at the intersections of the grid lines. The grid is bounded by thick black lines at the top, bottom, and right edges, while the left edge is defined by a single vertical line.
