

# PUZZLE MADNESS

Daily Hard Greater Than Sudoku Puzzle for Saturday 7th January 2006

A 6x6 grid of arrows on a coordinate system. The grid has major horizontal and vertical lines. Arrows point in various directions: top-right, bottom-left, top-left, bottom-right, and straight up or down. The arrows are placed at the intersections of the grid lines, creating a pattern where each arrow's direction is determined by its position relative to the center of the grid.
