

PUZZLE MADNESS

Daily Hard Greater Than Sudoku Puzzle for Saturday 18th February 2006

A 4x4 grid of arrows on a coordinate system. The grid consists of 16 small squares. Each square contains one of four types of arrows: '^' (up), 'v' (down), '<' (left), or '>' (right). The arrows are distributed as follows:

- Top row: '^' at (1,1), 'v' at (1,2), '<' at (1,3), '^' at (1,4).
- Second row: '<' at (2,1), '>' at (2,2), '^' at (2,3), '<' at (2,4).
- Third row: 'v' at (3,1), '^' at (3,2), '<' at (3,3), '^' at (3,4).
- Bottom row: '>' at (4,1), 'v' at (4,2), '>' at (4,3), '>' at (4,4).

The grid is bounded by thick black lines at the top, bottom, and right edges, while the left edge is defined by a thin vertical line.
