

The image displays a 3x3 grid of squares, each containing a unique pattern of black line segments and arrowheads. The grid is defined by thick black lines, and the internal segments are thinner. The patterns are as follows:

- Top-left square:** Three vertical line segments with arrowheads pointing left. Two horizontal line segments with arrowheads pointing left. One horizontal line segment with an arrowhead pointing right.
- Top-middle square:** One vertical line segment with an arrowhead pointing right. One horizontal line segment with an arrowhead pointing left. One horizontal line segment with an arrowhead pointing right.
- Top-right square:** One vertical line segment with an arrowhead pointing left. One horizontal line segment with an arrowhead pointing right. One horizontal line segment with an arrowhead pointing left.
- Middle-left square:** One horizontal line segment with an arrowhead pointing left. One horizontal line segment with an arrowhead pointing right. One vertical line segment with an arrowhead pointing left. One horizontal line segment with an arrowhead pointing right.
- Middle-middle square:** One vertical line segment with an arrowhead pointing left. One horizontal line segment with an arrowhead pointing right. One horizontal line segment with an arrowhead pointing right. One horizontal line segment with an arrowhead pointing right.
- Middle-right square:** One vertical line segment with an arrowhead pointing left. One vertical line segment with an arrowhead pointing left. One vertical line segment with an arrowhead pointing right. One vertical line segment with an arrowhead pointing left.
- Bottom-left square:** One horizontal line segment with an arrowhead pointing left. One horizontal line segment with an arrowhead pointing right. One horizontal line segment with an arrowhead pointing right. One vertical line segment with an arrowhead pointing left.
- Bottom-middle square:** One vertical line segment with an arrowhead pointing right. One horizontal line segment with an arrowhead pointing right. One horizontal line segment with an arrowhead pointing left.
- Bottom-right square:** One horizontal line segment with an arrowhead pointing right. One vertical line segment with an arrowhead pointing right. One vertical line segment with an arrowhead pointing right. One vertical line segment with an arrowhead pointing left.
