

PUZZLE MADNESS

Daily Hard Greater Than Sudoku Puzzle for Tuesday 24th June 2008

A 4x4 grid of arrows on a coordinate system. The grid consists of 16 small squares. Each square contains one of four types of arrows: '^' (up), 'v' (down), '<' (left), or '>' (right). The arrows are arranged in a repeating pattern across the grid. The top row has arrows pointing left, up, right, and down respectively. The second row has arrows pointing up, right, left, and down. The third row has arrows pointing right, down, up, and left. The bottom row has arrows pointing down, up, left, and right. The grid is bounded by thick black lines at the intersections of the 5 horizontal and 5 vertical grid lines.
