

PUZZLE MADNESS

Daily Hard Greater Than Sudoku Puzzle for Monday 4th May 2009

A 4x8 grid of arrows on a coordinate system. The grid consists of four horizontal rows and eight vertical columns. Each cell in the grid contains one of four types of arrows: '^' (up), 'v' (down), '>' (right), or '<' (left). The arrows are placed such that they point towards the center of each cell. The grid is bounded by thick black lines.
