

# PUZZLE MADNESS

Daily Hard Greater Than Sudoku Puzzle for Thursday 26th May 2011

A 6x6 grid of arrows on a coordinate system. The grid has horizontal and vertical axes. Arrows point in various directions: right (>), left (<), up (^), down (v), and diagonally. The arrows are placed at the intersections of the grid lines. There are several horizontal rows where all arrows point in the same direction (e.g., all right or all up). Some intersections have multiple arrows pointing in different directions.
