

The image shows a 3x3 grid of 9 cells. Each cell contains a unique pattern of black arrows. The arrows are distributed as follows:

- Top-left cell:** One arrow pointing left on the middle horizontal line.
- Top-middle cell:** Two arrows pointing down on the top horizontal line, one arrow pointing left on the middle horizontal line, and one arrow pointing right on the bottom horizontal line.
- Top-right cell:** One arrow pointing left on the top horizontal line, one arrow pointing left on the middle horizontal line, and one arrow pointing left on the bottom horizontal line.
- Middle-left cell:** One arrow pointing left on the top horizontal line, one arrow pointing right on the middle horizontal line, one arrow pointing left on the bottom horizontal line, and one arrow pointing left on the vertical line between the first and second columns.
- Middle-middle cell:** One arrow pointing right on the top horizontal line, one arrow pointing right on the middle horizontal line, and one arrow pointing right on the bottom horizontal line.
- Middle-right cell:** One arrow pointing left on the top horizontal line, one arrow pointing left on the middle horizontal line, and one arrow pointing left on the bottom horizontal line.
- Bottom-left cell:** One arrow pointing right on the middle horizontal line, one arrow pointing right on the bottom horizontal line, and one arrow pointing left on the vertical line between the second and third columns.
- Bottom-middle cell:** One arrow pointing right on the top horizontal line, one arrow pointing right on the middle horizontal line, and one arrow pointing right on the bottom horizontal line.
- Bottom-right cell:** One arrow pointing right on the top horizontal line, one arrow pointing right on the middle horizontal line, and one arrow pointing right on the bottom horizontal line.
