

PUZZLE MADNESS

Daily Hard Greater Than Sudoku Puzzle for Monday 5th August 2013

A 6x6 grid of arrows on a white background. The grid consists of 36 small squares. Each square contains one of four types of arrows: a right-pointing arrow (>), a left-pointing arrow (<), an up-pointing arrow (^), or a down-pointing arrow (v). The arrows are distributed as follows: the first column has all up-pointing arrows (^); the second column has alternating up (^) and down (v) arrows; the third column has alternating right (>) and left (<) arrows; the fourth column has all right-pointing arrows (>); the fifth column has alternating right (>) and left (<) arrows; and the sixth column has all down-pointing arrows (v). The grid is bounded by thick black lines.
