

PUZZLE MADNESS

Daily Hard Greater Than Sudoku Puzzle for Sunday 5th January 2014

A 4x4 grid of arrows on a coordinate system. The grid consists of 16 small squares. Arrows point in various directions: top-left square has a left arrow; top row has right arrows at (1,3), (1,4), and (1,5); second row has left arrows at (2,1) and (2,2), and right arrows at (2,4), (2,5), and (2,6); third row has up-right arrows at (3,1) and (3,2), and down-right arrows at (3,4) and (3,5); bottom row has down-left arrows at (4,1) and (4,2), and up-left arrows at (4,4), (4,5), and (4,6). The grid is bounded by thick black lines.
