

PUZZLE MADNESS

Daily Hard Greater Than Sudoku Puzzle for Thursday 10th December 2015

A 4x4 grid of arrows on a coordinate system. The grid consists of 16 small squares. Each square contains one of four types of arrows: a right-pointing arrow (>), a left-pointing arrow (<), an up-pointing arrow (^), or a down-pointing arrow (v). The arrows are arranged in a repeating pattern across the grid.
