

PUZZLE MADNESS

Daily Hard Greater Than Sudoku Puzzle for Sunday 19th November 2017

A 4x4 grid of arrows on a coordinate system. The grid consists of 16 small squares. Each square contains one of four types of arrows: a right-pointing arrow (>), a left-pointing arrow (<), an up-pointing arrow (^), or a down-pointing arrow (v). The arrows are arranged in a repeating pattern across the grid. The first row has arrows pointing right, left, up, and down respectively. The second row has arrows pointing up, down, right, and left respectively. The third row has arrows pointing right, left, up, and down respectively. The fourth row has arrows pointing up, down, right, and left respectively. The grid is bounded by thick black lines at the intersections of the rows and columns.
